FLONNE REVERIE

Senior Full-Stack Web Developer

Web Portfolio: https://flonne.dev

Email: flonne@flonne.dev | Phone: +351 910 474 082

Location: Custóias (Porto), Portugal

✨ Legally authorized to work in Portugal (long-term resident; active residency permit)

Summary

Senior web developer with 8+ years of experience in modern frontend frameworks and scalable backend cloud services. Passionate about elegant code, team well-being, and building accessible, cross-platform experiences. Experienced in everything from mission-critical onboarding flows to high-concurrency live event architectures. Now seeking remote or hybrid roles in frontend or full-stack web development!

Technical Highlights

Frontend: JavaScript/TypeScript, React, Next.js, Vite, Redux, HTML5, CSS3, ARIA/Accessibility, ASP.NET MVC, Razor, PHP, Haxe/AS3

Backend: Node.js, GraphQL, MySQL, MSSQL, MongoDB, Azure Cloud, AWS, scalable architecture

DevOps & Tools: Git, Azure DevOps, Jest, Selenium, Webpack, Cursor, GitHub Copilot, ChatGPT API, OpenAI Codex

AI Integration: Prompt engineering, Copilot & Cursor workflows, secure LLM integration within EU compliance

Other Strengths: Accessibility leadership, team mentorship, technical documentation, workflow optimization, infosec best practices

Extended Experience

Software Engineer (FE/BE), New Work SE (Xing)
Porto, Portugal / Remote – ~2 years

- ► Built and maintained React-based projects for user feeds, login systems, and onboarding
- ► Led large-scale code refactors to improve maintainability in mission-critical areas
- ► Integrated Jest and Selenium tests for long-term platform reliability
- ► Shared across teams to assist with complex frontend and backend problems
- ► Helped establish a new code style guide adopted across departments

Senior Web Developer, iSoftStone (Microsoft Office Team)

Remote (USA-based) – ~2 years

- ► Developed accessibility-focused components for Microsoft Office's marketing platform
- ► Coordinated with API and backend teams for integrated feature rollouts
- ► Implemented mobile-first UI with ARIA/screen reader support across platforms
- ► Conducted senior-level interviews; contributed to CSS standardization
- ► Gained fluency in SiteMuse CDN and mobile-specific browser inconsistencies

Senior Frontend Developer / Tech Lead, HCL / Flexasoft (Microsoft Xbox Team)

Redmond, WA, USA – ~1 year

- ► Led frontend for Xbox E3 and Microsoft Devices event hubs; zero post-launch issues
- ► Built Real-Time News CMS serving 300k+ concurrent users
- ► Created FastComp internal design preview tool for responsive in-browser editing
- ► Requested by name for collaboration due to clarity, mentorship, and reliability
- ► Managed Azure VM services and established reusable component standards

Web Developer / Admin, American IRA LLC

Asheville, NC, USA (Remote) – ~2 years

- ► Replaced web developer role at 16 after demonstrating ability
- ► Sole maintainer of WordPress enterprise site and supporting infrastructure
- ► Built internal tools and custom WordPress plugins/themes in PHP and C#
- ► Managed DNS, customer record systems, and on-site digital tools

Web Development Tutor (Freelance)

Remote – ~1 year

- ► Taught one-on-one full-stack web skills, from basics to industry readiness
- ► All students obtained dev jobs, including some without high school or college education
